## Calculating the Numbers (Source: 3HO)

To find your numbers, use the birth date: mm/dd/yyyy. Keep summing the numbers until they are reduced to between 1 and 11. For example, if you were born in 1986, to find your Destiny Number you would add  $1+9+8+6$  to get 24, and then add  $2+4$  to get 6.

These numbers are equivalent to the Ten Bodies plus the number eleven, the embodiment of all.

Soul Number: Sum of day numbers ( $d+d$ ).

Karma Number: Sum of month numbers ( $m+m$ ).

Gift Number: Sum of the decade (last two digits of the year) ( $y+y$ ). For example, the gift number for a birth year of 1975 is  $7 + 5 = 12$ ;  $1 + 2 = 3$ .

Destiny Number: Sum of all four digits of the year ( $y+y+y+y$ ).

Path Number: Sum of all the numbers in your birth date ( $m+m+d+d+y+y+y+y$ )
